Stark Bro's F. O. B. Nurseries

December 1, 1926

1927 PRICES

JAN 1 1927

Prices in Effect Dec. 1, 1926, supersede all other printed lists. *Prices subject to change without notice.*

TERMS All cash with order—no exceptions, except on orders of over 300 trees. On orders of 300 trees or more, to parties known to us to be reliable and well-rated, we will accept 15% cash with order, remainder upon arrival. Customer pays transportation charges.

Low Freight Rates Louisiana, Mo., is located on through main line railroads, North, South, East and West, and is on St. Louis low freight basis. We can make surprisingly quick shipment to all parts of the United States.

Small Orders Because of the increased cost of land, labor, implements, packing, etc., there is no profit on tree orders for less than $5.00. Please try to make your Tree Order at least $5.00. **Seed Orders** of any size accepted.

Replacement In the event that any nursery stock or seeds sold by us should prove untrue to name under which it is sold, we hereby agree on proper proof of such untrueness to name to replace that portion of the order proven untrue to name, or to refund the purchase price thereof. Except for such liability, and in respect to all nursery stock or seeds sold by us, we give no warranty, express or implied, as to description, quality, growth, productiveness or any other matter.—Stark Bro's Nurseries & Orchards Co.

Changes in Orders It may be necessary to make some changes in size and variety of trees and plants ordered, **unless customer definitely states that it will not be permitted.** Changes, if made, will be under the direction of our expert trained men and equal or superior sorts will be sent and labeled correctly. We have the largest and most complete stock of nursery trees in America, but because of the unprecedented shortage and the greatest demand we have ever experienced, some sorts will doubtless sell out early.

We do not replace nursery stock that fails to live. Possible neglect of planter and unavoidable climatic conditions prevent guaranteeing trees, plants and seeds to grow. We deliver the stock to transportation company in good condition; our responsibility ends there. If the stock is damaged in transit, claim for damages should be promptly made on transportation company.

Non-delivery of stock is excused in case of fire, frost, floods, drouth, strikes, shortage of nursery stock or seeds, or other causes beyond seller's control.

Parcel Post Orders We can ship 2 to 3 ft. size trees by parcel post. Add ten (10) cents to the 2 to 3 ft. price of each tree and this stock will come to you by mail postpaid. We can also ship grapevines, berry plants and small size Ornamentals in the same manner—prices are 5 cents more than listed. However, we prefer express and freight shipments for trees, except for those far removed from railroads.

Special Notice When buying apple, pear, peach, quince, cherry, crab apple, plum, apricot, dwarf pear, grapes, berries, shade trees, shrubs and roses, the following explanation of Price List should be read carefully:

Each Rate—In buying fruit trees, less than 10 trees go at "Each" rate.

10 Rate—10 or more of one variety go at the 10 rate price. (As varieties are tied in bundles of 10 trees.)

100 Rate—30 trees (or more) of a kind (as 30 Apples or 30 Peach, etc.), no matter how many trees of a variety go at "100" rate.

1000 Rate—300 (or more) of a kind (as 300 Apple, 300 Pear, 300 Peach, etc.) go at the 1000 rate price.

VINES—BUSHES—A bunch of 25 of one variety of Grapes, Berries, Roses, Shrubs, Climbers, Hedge Plants, Garden Roots, go at 100 rate; 300 at 1000 rate. Buy at least 25—it is cheaper.

MOST DESIRABLE VARIETIES in this List are printed in black type and starred thus ★

TREES ARE VERY SCARCE
SEND IN YOUR ORDER QUICK

HOW TO ORDER

SALES ARE DOUBLE LAST YEAR—ORDER
TREES NOW TO AVOID DISAPPOINTMENT

Write Plainly On the order blank enclosed, fill in your name, address, and the place to which you want the stock shipped; use pen and ink whenever possible. State specifically the number of each variety or kind wanted, and mark the sizes of each. Carry out the prices, extend the totals correctly, and attach check, draft or money order. Don't fail to give your shipping station.

Upon receipt of your order we will promptly acknowledge it, giving you the number under which your order is entered on our books.

When writing us regarding your order, *always give your order number.* Regardless of how often you may have written us, please be sure to *sign your full name and give your address,* and if replying to any letter from us, give the date of same.

Inspection The Certificate of our State Entomologist is attached to all shipments. No diseased or infested trees are permitted in our nurseries. Seeds are tested for Germination.

Order Now As far as possible, orders are handled here as they are received, especially selected and reserved in customer's name for shipment at the proper time. We always advise prompt, early orders—better service for our customers, better for us.

This is more important than ever this year, because of tree shortage. **Send in Your Order Today.**

SPECIAL PRICES ON LARGE ORDERS

Very Large Planters Should Submit List of Stock and Permit Us to Quote Complete Price on Entire Order

***Horseradish**	.20	10.00	70

EARLY RED BIRD APPLE DEMONSTRATION OFFER

"A Gold Mine for Early Apple Growers"

Earliest of all apples; as red as a strawberry, good sized for an early apple, three days to a week earlier than Yellow Transparent and larger. A new variety which has proved absolutely hardy in Nova Scotia, and has fruited successfully in the apple growing sections of the United States. Bears extremely young, bears every year, and is on the market first of all apples. Hence, it outsells any of the others and its showy red color skims the cream of the high market prices.

SPECIAL PRICES on EARLY RED BIRD APPLE

250 trees or more—3 to 5 ft.. size—35c Each
250 trees or more—4 to 7 ft. size—45c Each

$6,000.00 For One Apple Limb

STARKING

KING OF ALL RED APPLES

Trade Mark Reg.

"This Apple Will Be Worth Millions"

"to the country," declared **Prof. Dorsey, Illinois** State Horticulturist, right after seeing the original **STARKING** Tree and young 2nd generation **STARKING** trees bearing all-over-red apples **in August** (long before ripe). "This limb is a **TRUE BUD SPORT**—a very, very rare occurrence in nature. **It is my belief that this one limb will make horticultural history."**

STARKING

KING OF ALL RED APPLES

Trade Mark Reg.

Our New $6,000.00 Blood Red Stark Delicious Bud Sport from a limb of a Genuine Original Tree Strain Stark Delicious—Twice as Red—Colors Earlier—Keeps Later

The TRUE BUD SPORT That We Sought for 30 Years

In the last 100 years, **only 6 TRUE BUD SPORTS have been**—to our knowledge—**recorded!**

For 30 years, our search for a new and **better** red apple has never ceased. Now—STARKING **is the reward of our 30 years' search!**

These new **STARKING** apples are **twice as red** as the apples on rest of the original tree, a Stark Delicious. They get **red much earlier** and keep later—a beautiful solid, **all over red** even in stem and blossom ends. **Because they color earlier, they can be picked while still hard, crisp, full of juice and will keep until late Spring without ever getting dry or mealy—retaining full juice and crispness.**

Produces True to Type in Succeeding Generations

By exacting tests during years, **we have proved that STARKING Propagates true to type in succeeding generations!** All the noted Horticulturists who investigated the original **STARKING** tree and also young succeeding generation **STARKING** trees agree that **STARKING is a wonderful Horticultural Phenomenon.** The fact that it occurred on only this one limb of the original tree **proves that it is a TRUE BUD SPORT** which scientists agree will produce fruit **true to type** on trees of succeeding generations. **Prof. Oskamp, New York** State Ext. Prof. Pomology, declares: —**"There is no question about it retaining this extra red color when propagated!"**

"Will be a Tremendous Money Maker for Fruit Growers"

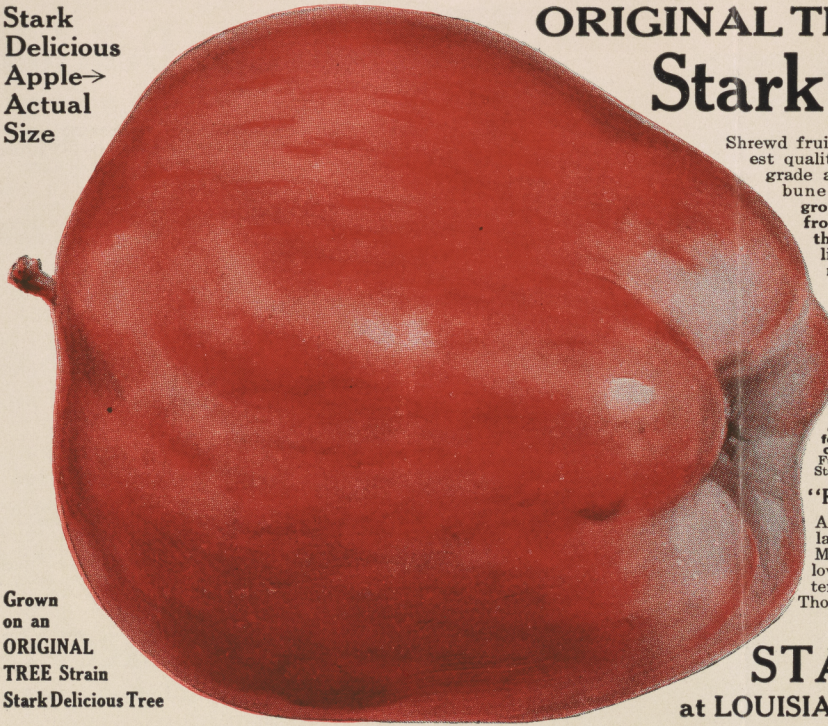

—declares **Prof. Matthews, North Carolina** Chief Division Horticulture. "I am certainly pleased that I saw this original tree. **I am so confident that it will be so valuable that I want to purchase some of the first trees of this new variety that you offer for sale."** Later—Prof. Matthews bought and planted 750 **STARKING.** Later—He bought 2000 more.

"Even the fruit that is shaded on the lower and inner branches develop plenty of red color. It colors at least 2 weeks earlier than Delicious," declared the Official Bulletin **N. J. Hort, Soc.** last March.

Stark Delicious Apple→ Actual Size

Grown on an ORIGINAL TREE Strain Stark Delicious Tree

ORIGINAL TREE Strain of Stark Delicious

Shrewd fruit growers are planting only highest quality trees that will produce highest-grade apples. Recently The Chicago Tribune showed conclusively that **the grower gets 80 per cent more profit from such apples as Stark Delicious than he gets from ordinary apples,** like Ben Davis—and that **it costs as much to raise the common sort as it does to raise Stark Delicious.**

$60,000 FOR 1 YEAR'S CROP

Chris Ringhausen, "Apple King of Illinois" (although a poor man only a few years ago) received over $60,000 for his last year's crop from his Calhoun Co., Illinois, orchards. He says:—**"Stark Delicious is the most profitable apple in my orchards. By having Stark Delicious to sell every year, I get a better price for my entire apple crop than I otherwise could."**

Furthermore, the **ORIGINAL TREE** Strain of Stark Delicious trees also

"RESISTS CANKERS and DISEASES"

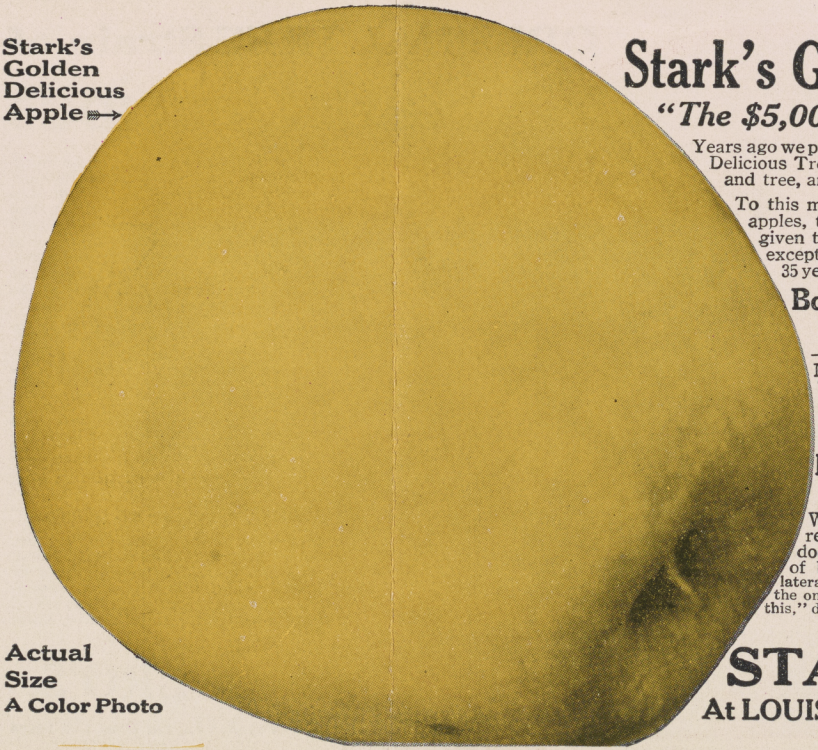

According to the famous Dr. Whitten, late Dean of Horticultural Department, Mo., and Calif. "Is never injured by lowest temperature of most severe winters." "As hardy as an oak," says Hon. Thos. Rigg, Horticultural Editor, Iowa.

Stark's Golden Delicious

"The $5,000.00 Tree in a Cage!"

Years ago we purchased the **ORIGINAL** Stark's Golden Delicious Tree, paying $5,000.00 for 30 feet of ground and tree, and placed it in a burglar-proof cage.

To this most wonderfully flavored of all yellow apples, the American Pomological Society has given the **only** Wilder Silver Medal, with one exception, ever awarded to an apple in the last 35 years. This variety

Bore Crops When 2 Yrs. Old in 33 Different States

—in Ill., Mo., Va., Calif., D. C., La., Wisc., N. J., N. H., Ore., Penn., Tex., Iowa, Tenn., Md., Conn., Mass., Mich., N. Mex., Wash., W. Va., Ind., Kan., O., Ky., N. Y., and many other states. Furthermore, it

Bore Despite 3 Frosts and 2 Freezes in 11 States

Where other apples failed, because of its remarkable habit (stated by Prof. Paddock, Ohio) of putting out 3 different sets of blooms—first on fruit spurs, next on lateral buds, and then on terminal buds. "This is the only apple I have seen or heard of doing all this," declares Prof. Crane, Hort. of W. Va.
